Working Together - The Partnership

Georgie Porgies understands that timely and effective communication with parents/carers is paramount if a productive and enjoyable three-way relationship is to be achieved.

When a child joins Georgie Porgies we like to gain as much information and knowledge about them so that we can help them to settle as quickly and as easily as possible so that the experience is as happy and as enjoyable as it possibly can be.

We operate an open door policy and welcome parents and carers to visit, spend time with their child and discuss any concerns or issues with staff.

For general information and reminders notices will be given. Your child's Key Person will provide you with the necessary information so that you are fully aware of your child's day to day care.

There will be occasional Open Days/Evenings where parents and carers have the opportunity to speak to staff about their child's development and progress in a more relaxed atmosphere where quality time is available. In addition, regular newsletters and progress reports will keep you up to date with your child's progress.

Our Nursery Groups

Babies

Babies of six weeks to 18 months are looked after in their own room with their own dedicated team of staff. The room is a bright happy place with plenty of time for play and cuddles.

We will organise the day and the care to fit in with the routine of the baby and parent/carer. When awake babies will be stimulated and involved in a full range of activities.

Toddlers

15 months to 2 years. A pleasant and warm environment is provided for your child to develop it's own routine of eating and toilet training. Enjoyment will be provided by free play, group story times, singing and structured play so that social skills can evolve. Each day will provide new experiences involving sand, water, building and theme play to encourage the full development of your child.

2 to 3 years. The older toddlers in the group will begin to learn basic development skills involving colour, shapes and counting. Play is still important and they will get messy with sand, water and paint as they produce that first masterpiece for you to cherish and display on the fridge at home. Social interaction is important and is encouraged so that your child becomes aware of their peers and makes friends.

Pre School

Your child will be encouraged to investigate and develop further in a pre-school atmosphere. Stimulating, exciting and demanding activities will give your child that head start ready for school. All activities are chosen so that the foundation stage of the National Curriculum can be achieved. The Early Learning Goals for the education of 3 to 5 year olds will be delivered in the seven key areas of learning but there will still be the all important fun, play, love and cuddles for your child.

The 7 Key Areas of Learning

1. Personal social and emotional development

Georgie Porgies provides the opportunity for your child to learn how to relate to both adults and other children. Learning to share, co-operate and show consideration, respect for others and their property will enable your child to fit in and be at ease with their peers. Independence is encouraged but we ensure that your child knows that they only have to ask for help and it will be there. The natural curiosity of children is used to teach them about people, places, animals, plants and each other.

2. Communication and Language

At Georgie Porgies we develop all aspects of language so that children can communicate well. Good communication depends upon the ability to speak, listen, read and write. Georgie Porgies is made interesting and exciting to encourage your child to talk about what they see and do. Reading is encouraged by making reading materials readily accessible to your child. There are many opportunities to listen to stories, audio and video tapes and the children are encouraged to listen to each other. The 'quite area' is always available for reading.

3. Mathematical Development

Mathematics in Georgie Porgies revolves around practical activities and experience which form part of our daily routines. For example, tidying up and organising toys, matching shapes to understand shape and size, construction with shapes and fitting them together, counting and much more.

4. Understanding of the World

Activities are designed to make your child aware of the world around them and the wider world outside. They will begin to understand about the weather, nature - animals and plants, different countries and cultures. They will be taken on local walks and encouraged to collect items of interest.

5. Physical Development

To promote the healthy growth of your child and for them to develop muscular control and co-ordination regular activity is provided through games and play. As well as being engaged in physical activities your child will be encouraged to solve little problems all of which all helps to build self confidence and all round ability.

6. Creative development

Your child will use creative activities involving model making, art, craft, music and movement drama to record what they have seen, done, imagined and felt. Every day a selection of these activities will be available to your child many of which will be structured with guidance and encouragement from our staff. Involvement is more important than what is actually made.

7. Literacy

Reading and Writing is encouraged by making reading and writing materials readily accessible to your child. There are many opportunities to listen to stories, audio and video tapes and the children are encouraged to listen to each other. The quiet area is always available for reading and writing.
